Synthetic sample CV – invented person for the SDC Hackathon 2026 demo.

Summary

Fresh Computer Science graduate who wants to work on AI products. Built and deployed full-stack web apps and a small LLM chatbot; strongest in Python and SQL.

Education

- BSc (Hons) Computer Science, Multimedia University (MMU), 2022 – 2026. CGPA 3.55/4.00.
- Completed one machine learning elective (regression, classification) and a database systems course.

Projects

- Final-year project: built a web app with React and a Flask backend for booking campus rooms, deployed with Docker on AWS.
- Developed REST APIs in Python with a PostgreSQL database; wrote unit tests and used GitHub for version control.
- Hackathon (2025): built a chatbot prototype with an LLM API and prompt engineering to answer student FAQs; our team placed top 10.
- Kaggle: trained a scikit-learn classification model to predict customer churn (accuracy 84%).

Experience

- Software Engineering Intern, Kirana Digital Sdn Bhd, Kuala Lumpur. Mar – Aug 2025.
- Fixed bugs and added small features to an internal admin dashboard (JavaScript, PHP, MySQL).
- Wrote SQL queries for the operations team's weekly reports.
- Part-time tutor: tutoring secondary-school students in mathematics, 2023 – 2024.

Skills

- Python, JavaScript, React, SQL, PostgreSQL, Git, Docker, AWS (basic), HTML, CSS.
- Machine learning with scikit-learn; basic prompt engineering for LLM apps.

Certifications

- AWS Certified Cloud Practitioner, 2025.

Languages

- English (fluent), Bahasa Melayu (good), Tamil (native).

Activities

- Vice-president, MMU Coding Club 2024/25: ran weekly coding sessions for first-year students.
